North Devon Coastal Heritage

Explore conserve celebrate our historic environment

Much of the North Devon coast's history and heritage is still visible when you know where to look. This is due to the protection provided by its status as an Area of Outstanding Natural Beauty and the passion and knowledge of the people who live here. We welcome local people who want to get involved.

An interest in history and/or archaeology is not essential, most important is the desire to learn about and look after the special places on our coastline
